

BRASSCRAFT® PEX WATER STOPS

MODERN SOLUTIONS. LEGENDARY QUALITY.

PEX pipe. Tough. Flexible. And quick to install. There's no wonder it's grown in popularity among pros. But as good as it is, it still needs a trusted water stop at the end of it. BrassCraft® PEX water stops come in multiple styles and are crafted with pride to deliver the quality that makes us one of the most trusted names in plumbing.

We've expanded our PEX water stop line up to ensure no matter the connection type, our brand is one of the most trusted names in water stops.

MULTI-TURN STOPS

- Multi-turn operation to control water flow with a few turns of the handle
- Machined, one-piece brass body construction for strength, durability, and quality
- Easy-to-remove handle to help protect against accidental operation during rough-ins
- Repairable stem
- Available as SpeediOne® one-piece supply—an all-in-one water stop and connector—for quick installation
- Available in crimp and cold expansion options for PEX pipe

G2 1/4 TURN STOPS

- One-piece shutoff mechanism for smooth operation, even after long periods of non-use
- Machined, one-piece brass body construction for strength, durability, and quality
- Easy-to-remove handle to help protect against accidental operation during rough-ins
- 100% leak tested
- Available as SpeediOne® one-piece supply—an all-in-one water stop and connector—for quick installation
- Available in crimp, cold expansion and push connect options for PEX pipe

KT 1/4 TURN STOPS

- Quality brass ball valve engineered with PTFE seats to provide smooth operation and a secure seal
- Machined, one-piece brass body construction for strength, durability, and quality
- Two high-performance O-rings withstand high temperatures and corrosion
- Easy-to-remove handle to help protect against accidental operation during rough-ins
- 100% leak tested
- Ideal for recirculating water systems above 115° F
- Available in crimp and cold expansion options for PEX pipe

DUAL OUTLET & DUAL OUTLET DUAL SHUTOFF STOPS*

- Enables maintenance and repair of appliance without shutting off the water to the entire home
- Allows two independent supply lines to be attached to a single stop
- Ideal for adding dishwashers, ice makers, water filters and hot water dispensers to existing water supply
- One-piece brass body construction for strength, durability, and quality
- Easy-to-remove handle to help protect against accidental operation during rough-ins
- Available in a range of quarter-turn and multi-turn configurations
- Available in crimp for PEX installs

* Excluded from Designed, Machine and Assembled in USA
